Hisense Refrigerators Brand Honors

2016

In 2016, Hisense Refrigerators earned the "2016 User Satisfaction Award" in the Australian market, securing leading positions in both sales and market share in the South African market, establishing itself as the premier brand for Refrigerator products.

2017

In 2017, the Hisense Global Innovation Design Center introduced the concept of Chinese-style refrigerators. The Hisense Chinese-style refrigerator received acclaim from the international independent expert panel of the iF jury, winning the 2017 iF Product Design Award.

2019

In 2019, the Hisense Second Refrigerator was honored with the iF DESIGN AWARD.

2020

In 2020, the Hisense Seamless Door Refrigerator received the iF DESIGN AWARD.

2021

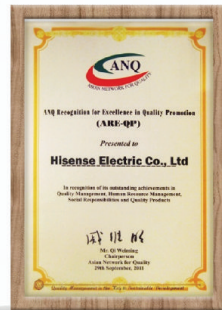

In 2021, the Hisense Tresor Refrigerator was honored with the iF DESIGN AWARD, and the Hisense Transparent Porch Refrigerator received the International Red Dot Design Concept Award.

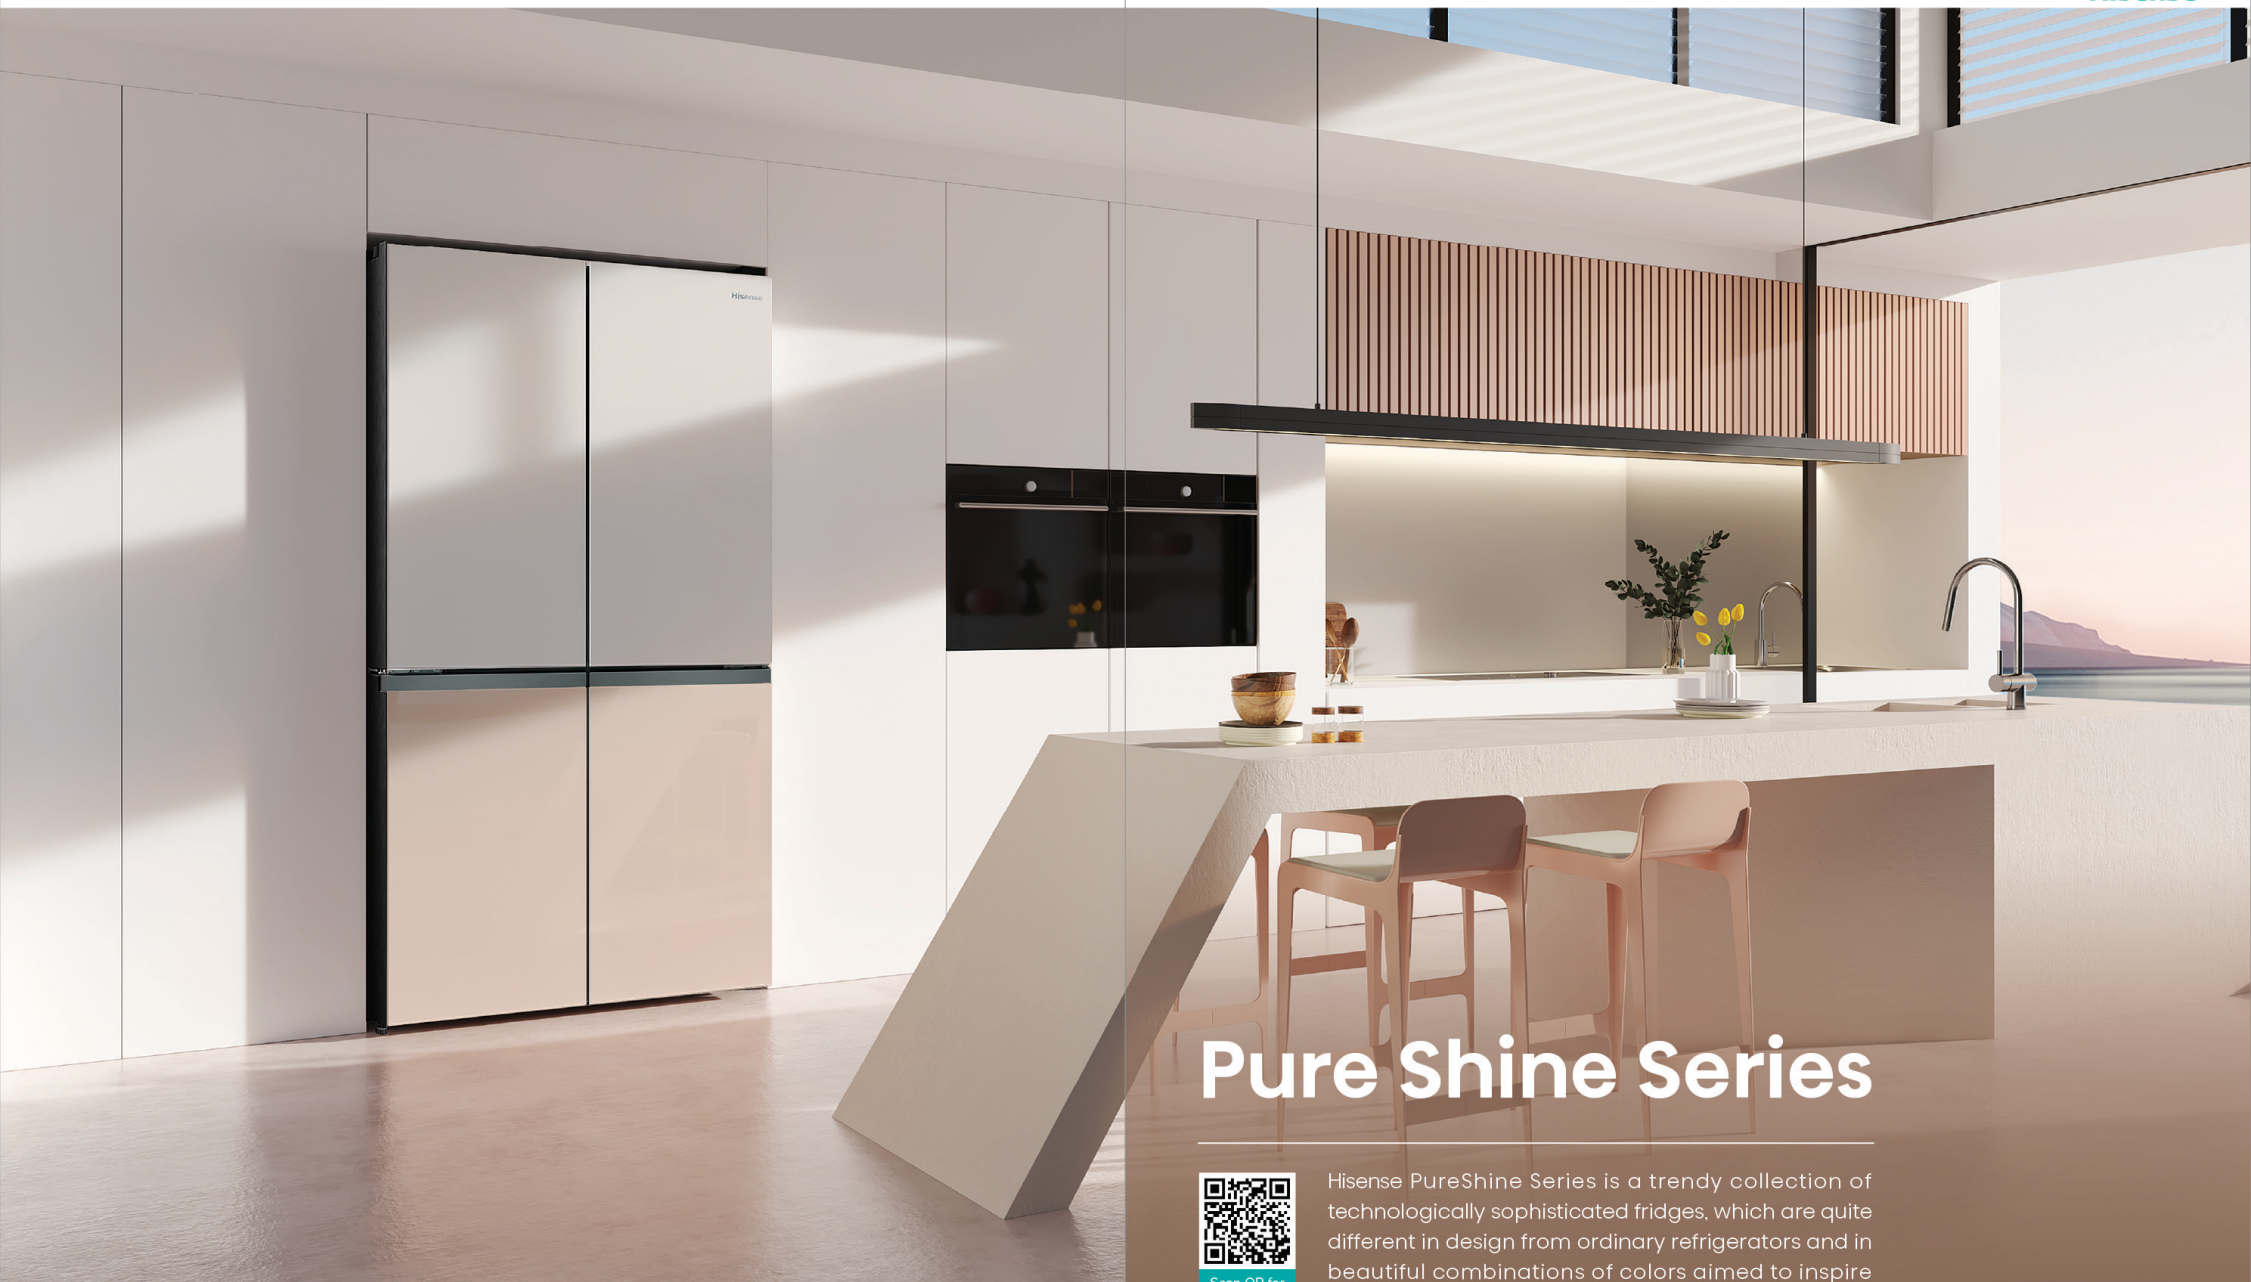

2022

In 2022, the Hisense Combination Refrigerator was awarded the International Red Dot Design Concept Award, and Hisense received the Dubai Quality Global Award, making it the sole Chinese company to achieve this prestigious recognition to date.

2023

In 2023, the Hisense Vacuum Door Refrigerator secured the AWE 2023 Design Award.

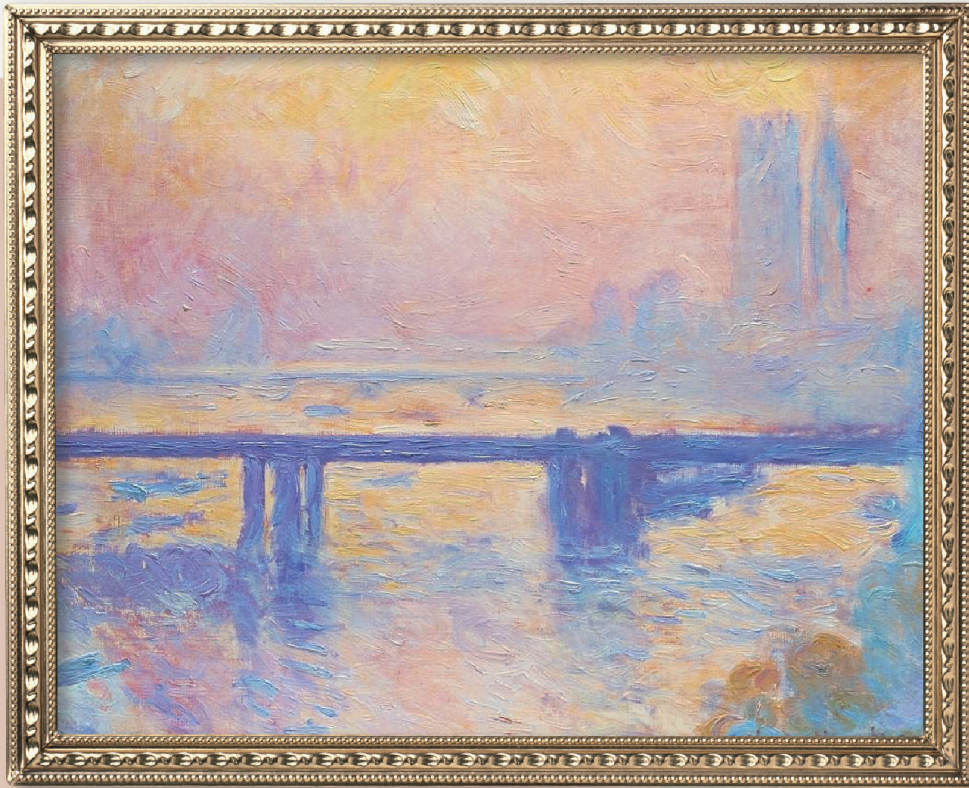

Pure Shine Series

Scan QR for
more videos

Hisense PureShine Series is a trendy collection of technologically sophisticated fridges, which are quite different in design from ordinary refrigerators and in beautiful combinations of colors aimed to inspire creative expression at home.

Khaki

Pink

Blue

Multicolor design, reminiscent of dopamine's soothing touch, deeply addresses the emotional needs of young individual by infusing the brand's colour scheme with a renewed sense of vitality, it effectively reshapes the brand image in innovative way.

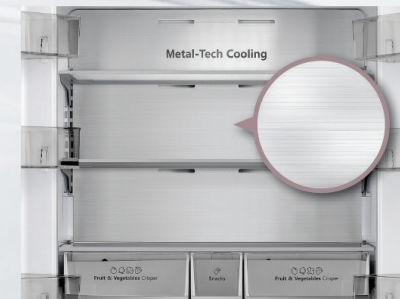

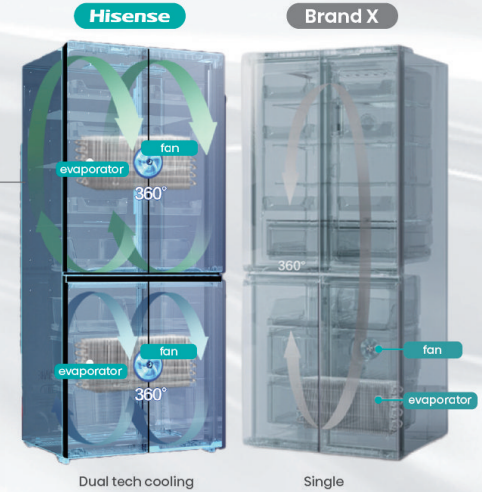

Dual Tech Cooling : No Odor Mixing

The fridge and freezer/flexible temperature compartments each have independent cooling systems with dedicated fans and evaporators. This separation ensures no cross-contamination of odors, enhances cooling efficiency and keeps food fresher.

Benefits :

- Prevention of Cross-Contamination of Odors.
- Rapid Cooling.
- Accurate Attainment of Set Temperatures.
- Lower Energy Consumption.
- Prolonging the Lifespan of the Refrigerator.
- Prevention of Moisture from the Refrigerator Entering the Freezer Compartment.

Full Metal-Tech Cooling : Fast Cooling, Low Temperature Variance

Compared to plastic liners, it increase in thermal conductivity, resulting in faster and more even cooling, leading to enhanced food preservation.

Uniform Cooling for Enhanced Moisture

Rapid and even cooling maintains the temperature in the compartment at $\pm 0.3^{\circ}\text{C}$, ensuring longer food preservation and freshness.

Triple Temperature Zone

One fridge, three compartments

This fridge-freezer is fully adaptable to your needs. It has three different compartments with flexible temperatures – fridge, freezer, and My Fresh Choice section, each with their own controls. You can set the fridge and the freezer to whatever temperature suits you most.

Fridge
2 ~ 8°C

Freezer
-14 ~ -24°C

My Fresh Choice
-20 ~ 5°C

Large Capacity

Spacious for bigger space

It has a big capacity, so there's plenty of space in the fridge and freezer to store any shape or type of food. It also has four doors that open out wide, so you can see everything at a glance.

Multi Door Balcony

Made for tall and large bottles

Plenty of space to store large bottled beverages and other items in the fridge.

Metal Glide Drawer

Easy access to your frozen goods

Hisense refrigerator with durable metal drawer runners allows you to store large frozen goods safely and effortlessly, providing a smooth opening and closing experience.

Soft LED Lighting

For both fridge & freezer

Brighter and more efficient than standard incandescent fridge bulbs, LED lighting allows you to see the contents of your fridge more clearly, while also saving energy.

* Selected models only

Cantilever Shelves

Flexible storage

If you want more space between the shelves, simply take one out and place it on a different shelf-holder. That way you can tailor the inside of the fridge specially to your needs. All the large bottles, mason jars or tall cakes will fit perfectly inside the fridge.

Durable Inverter

Stable and energy saving

Modern inverter compressors measure the conditions inside your fridge and adjust the cooling output accordingly, to ensure a stable temperature, save energy and run quieter, while also extending your appliance's lifespan.

Precise Temp Control

Maximum energy efficiency

Five highly-effective Digital Temp Sensors are built into the refrigerator (as shown in blue spot), which are engineered to optimally adjust the cooling level of the fridge.

My Fresh Choice

Storage on demand

The My Fresh Choice Zone can be easily converted from a fridge and freezer with -20°C ~ 5°C temperature setting. By creating the perfect temperature environment you need, you can efficiently prolong the freshness and taste quality of your desired food.

VACUUM DOOR REFRIGERATOR
refrigerators

DESIGN
Winced Industrial Design Center
Wu Xiang, Chen Jia, Wang Dafei, Wan Lei
Guangdong, China

CLIENT / MANUFACTURER
Hisense Refrigerator Co., Ltd.
Guangdong, China

During the coronavirus outbreak, the people obviously increase the demand for food storage, refrigerator's main function is to store fresh, vacuum food can inhibit oxidation speed and thus to extend the time of food preservation, the vacuum function carry on the refrigerator, realize the key function of pumping air into vacuum state, make the food more fresh, meet user longer longer preservation time. The total thickness of the refrigerator is 598mm, which can be perfectly placed into the cabinet. The rail hinge is used to make the side 0 protruding when the door body rotates.

Flat Built-In : Front Not Protruding, Seamless On The Side, No Wasted Space

Our refrigerator is a Flat Built-in model that seamlessly integrates with cabinets, maintaining a flush alignment. It does not protrude beyond the cabinets, ensuring a perfect alignment. With zero gaps on three sides, it effortlessly blends with the overall home decor, presenting a visually appealing and space-efficient solution.

Benefits :

- Seamless integration with 0 cm margin.
- Easy installation and space saving.
- Bottom heat dissipation for minimal space behind.
- Smooth door opening (remove for added convenience)

Overall Sterilization
Rate 99.16%

Overall Deodorizing
Rate 90.5%

All Zone Active Hygiene+ : Purifier Within the Refrigerator Nurtures & Safeguards Your Family's Health

The refrigerator and freezer, with dual compartments, provide 24-hour active, efficient sterilization, purification, moisturization, and freshness. They offer round-the-clock assurance for family nutrition Health.

With reference to the experimental data, variations occur based on the operational conditions and the type, state, and quantity of the food.

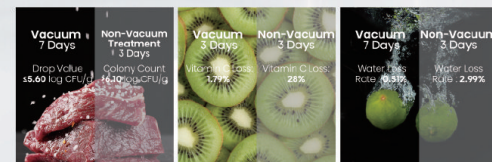

User-Centric Benefits : Providing Around-the-Clock Protection for Your Diet.

- Comprehensive Coverage - Leaving No Corner Untouched in the Refrigerator.
- Genuine Sterilization - A Long-lasting Sterilization Rate of 99.16%.
- True Deodorization to Prevent Secondary Contamination, Achieving a High Purification Rate of 90.5%.
- Humidity Regulation to Extend the Storage Period for Fruits.

Vacuum Preservation : Fresh-keeping Master

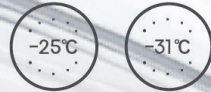

Integrating external vacuum technology, the one-touch vacuum sealing feature preserves food in a low-pressure, low-oxygen vacuum state. This technology can be repeatedly applied using vacuum bags or containers, effectively sealing in the freshness of the food.

Benefits :

- Prevents ingredient oxidation and rotten.
- Inhibits bacterial growth.
- Locks in nutrition for fruits and meats; convenient storage.

Referring to the experimental data, variations arise depending on the operational conditions, as well as the type, state, and quantity of the food.

-25°C/-31°C* Deep Freeze Fresh : Preserve Frozen Food's Quality

When it's time to stock up your freezer with new food, use the super freeze function. This feature rapidly drops the temperature to -24°C /-31°C* and generates cold air, allowing you to freeze your groceries quickly while preserving their vitamins.

-25°C/-31°C Deep Freeze Fresh

Ordinary Freeze

Benefits :

- Maintains the nutritional value of frozen food
- Keeps frozen food tasting fresh even after long storage
- Energy efficient in the long run

All Zone Active Hygiene Pro : IONS Purifier Within the Refrigerator Nurtures Your Family's Health

With 24-hour real-time sterilization, purification, and preservation in all zones (Fridge & Freezer), it ensures comprehensive dietary well-being for your family. The visible sterilization and purification progress on the door provides convenient monitoring, helping you manage your refrigerator's contents effortlessly.

Dual-Pure Circulate : Fridge and Freezer Operate with Independent Circulation

The fridge and Flexible Zone feature independent evaporators, enabling separate circulation without odor transfer to maintain original flavors and enhance refrigeration efficiency. With rapid cooling, precise temperature control and reduced energy consumption to ensure optimal performance.

Precise Moisture Zone : Ensure proper storage for various foods

Low Humidity (45%): Keeps dried goods crisp and crunchy, ideal for storing powdered milk in mother and baby spaces.

Medium Humidity (65%): Preserves fruits, keeping them fresh and plump, preventing dryness and loss of vitamin C.

High Humidity (85%): Keeps vegetables tender and juicy, with lettuce remaining crisp and rich in nutrients.

-31°C* Flash Freeze : Fresher, Healthier Nutrients

Lower freezing temperatures preserve more nutrients and minimize moisture loss in food, offering you a convenient and healthier freezing experience.

Digital Flex Zone : Store at the Right Environment

This special drawer at the bottom of the fridge offers versatile temperature settings:

0°C Soft Freezing: Perfect for salmon, keeping it slightly frozen to maintain freshness and texture, ideal for slicing and cooking soon.

2°C for Cold Drinks: Perfect for ice-cold beverages, keeping them refreshingly chilled and ready to enjoy at the perfect temperature.

5°C for Fruits: Keeps fruits fresh by slowing down the ripening process, preserving their natural flavors and nutrients for longer.

Moisture-Rich
Preservation

Healthy and
Anti-Bacterial

Fresh and
Odor-Free

Ethylene Removal
for Freshness

Benefits :

- This function capable of operating in extreme temperature, from -30°C to 60°C.
- Low air resistance, without impacting overall system performance.
- Longer lifespan.
- No issues with saturation adsorption or secondary pollution.

Deodorizing Filter : Say Hello to Fresh Air

Hisense refrigerator employs a state-of-the-art detachable deodorizing air filter that uses activated carbon to clean the air in the refrigerator. By filtering out unwanted odors, the deodorizing filter ensures the air stays fresh to preserve the flavor for longer.

Surround Cooling System :

Cools the fridge evenly from corner to corner. Cold air is blown out through multiple vents on every shelf level, so it maintains a constant temperature and food stays fresher.

Easy Approach Pantry : Easy Access to Big Items

The easy approach pantry is easier for you to access everything. Fast and convenient.

Adjustable Door Balcony : Adjustable Door Rack

It's really easy to change the shelf height and position just as you like. That really comes in handy when you need to store tall bottles or other big items.

Detachable and Washable PVC Anti-Bacterial and Anti-Mold Door Seal Strip

Crafted from silicone rubber material, capable of withstanding temperatures ranging from a high of 200°C to a low of -40°C, it demonstrates excellent insulation properties. Additionally, it provides long-term resistance to oxygen and mold, superior sealing performance, high elasticity, and resistance to aging.

Curve Door Design

Following the glamorous masterpiece, we blend curve into our fridge design. The curve door design of this unit delivers a stylish and elegant look. Explore the beauty of liberty, artsy in chic.

Push Button Defrost

Thanks to the push button defrost function, defrosting the compartment is as easy as pressing a button.

Voltage Protection : Wider Voltage Safer Operation

The voltage protection keeps the refrigerator working steadily and reliably when power fluctuates.

Metal Back : Stay Safe and Sure

This unit is manufactured with a metal back for increased safety and protection. It also enables to place the appliance firmly against the wall.

Model	RR120D4ABNI
Net Dimension (W*D*H)	475×448×849mm
Total Capacity (Gross/Net)	110L / 94L
Storage Capacity (Freezer Net)	-
Storage Capacity (Fridge Net)	94L
Door Panel	Steel/Black

Key Features

Fresh Zone

Full Metal Casing

Fruit and Vegetable Crisper

Unique and Stylish Design

Big Door Balcony

Tempered Glass Shelf

Reversible Door

Basic Information

Model	RR60D4ABN
Net Dimension (W*D*H)	445×468×500mm
Total Capacity (Gross/Net)	60L / 45L
Storage Capacity (Freezer Net)	-
Storage Capacity (Fridge Net)	45L
Door Panel	Steel/Black

Key Features

Chiller Zone

4 Adjustor

Anti-Bacteria Door Seal

Unique and Stylish Design

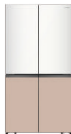

Full Metal Casing

Voltage Protection
